SUMMARY

Financial Modelling with 2.5+ years of experience in data analytics, reporting, business intelligence, and financial analysis. Skilled in transforming complex datasets into actionable insights using **SQL, Excel, Python, and data visualization tools**. Experienced in **data cleaning, statistical analysis, KPI tracking, forecasting, and business performance analysis**. Strong understanding of **financial data analysis, budgeting, forecasting, and financial modeling**. Adept at identifying **trends, optimizing processes, and supporting strategic decision-making** through data-driven recommendations. Passionate about leveraging **analytical and financial modeling skills** to drive business growth and operational efficiency.

SKILLS

Languages: Python, SQL, Java

Core Concepts: FP&A, Capital Budgeting, Time Value of Money (TVM), Working Capital Management, Risk Analysis, Financial Planning

Financial Modeling: Three-Statement Modeling, DCF Valuation, Business Valuation, Scenario Analysis

Financial Analysis: Financial Statement Analysis, Budgeting, Forecasting, Ratio Analysis, Variance Analysis

Data Analytics: Advanced Excel, Power BI, Tableau, Data Visualization, Dashboard Development

Tools: Excel, Power Pivot, Jupyter Notebook, Git, MySQL, VS Code

WORK EXPERIENCE

Data Analyst | Helson Software Solutions Private Limited

Feb 2024 – Jul 2026

- Analyzed datasets using **SQL, Excel, and Python**, transforming raw data into actionable business insights.
- Built **interactive dashboards** and **KPI reports** using Power BI and Excel for performance tracking.
- Automated reporting workflows, reducing manual effort by **80%** and improving operational efficiency.
- Performed **data cleaning, validation, and transformation** to ensure data quality and reporting accuracy.
- Conducted **trend analysis, forecasting, and variance analysis** to support business planning and decision-making.
- Optimized SQL queries and reporting processes, reducing data processing time by **70%**.
- Collaborated with stakeholders to define business requirements and deliver data-driven solutions.
- Generated MIS reports and presented analytical findings to support strategic and financial decisions.

PROJECTS

Paradeep Phosphates Ltd. – Equity Valuation Model → Financial Modelling

[Link](#)

- Built a 3-statement financial model with revenue, EBITDA, working capital, CapEx, and cash-flow.
- Performed DCF, Comparable Companies, Precedent Transactions & NAV valuation with WACC, blended valuation analysis, and implied share price estimation.
- Conducted WACC and terminal growth sensitivity analysis to assess valuation under assumptions.
- Compared valuation outputs using football-field analysis to derive an investment view.

Tata Motors Ltd. – Financial Modelling & Forecasting

[Link](#)

- Built an integrated 3-statement model with working capital, CapEx, PP&E, debt, and cash flows.
- Developed 5-year financial forecasts using operating assumptions and ratio analysis.

ACHIEVEMENTS

- Published an IEEE-indexed research paper, "**Prevention of Jamming Attacks in MANET**", demonstrating expertise in network security, wireless communication, and analytical research methodologies.

EDUCATION

Executive MBA Training – Financial & Investment Management | NIBM Global, TVM.

Aug 2026 – Present

B.E. Electronics and Telecommunication | YCCE, Nagpur

May 2019 - May 2023

Minors in Cloud Computing and Big Data Analytics | YCCE, Nagpur

May 2021 - May 2023
